WasteWORKS: Year in Review

It's been a very busy year for Carolina Software. Our technicians have been busier than ever with new installations, upgrades and visiting many existing customers who have decided to take advantage of the numerous WasteWORKS companion products. In addition, our staff has been working non-stop to provide our customers with the latest technology and advanced new tools for managing facilities of all sizes.

A New Look for the WasteWORKS Website

If you haven't visited WasteWORKS.com lately, you're in for a surprise. The new website has a fresh new look and updated features to match. The new site features additional tools for ordering forms, requesting support and finding information about the WasteWORKS family of products. You can also sign up to receive an e-mail version of each newsletter, and you can download copies of past newsletters directly from the site. The updated website will continue to grow over the coming months, so be sure to visit often to see what's new. www.wasteworks.com

WasteWORKS® for Container Billing

Container Billing is on the Menu

Roll-off management is not new to the WasteWORKS family of products. What is new is the complete in-

hanced functionality for managing roll-off containers, all with the advantage of being able to create billing and reports within the same WasteWORKS program they use for scale house management.

For customers choosing to enhance the security of their facilities or add a new tool to their auto-

Volume 14 - Issue 1

January 2007

Happy New Year!

Thanks to the ongoing support of our hundreds of loyal customers across North America, Carolina Software has had a great 2006 and we're looking forward to an even better 2007. We realize that it is the support of our customers that fuels the future of our products and is the reason for our success. Thank you from all of us at Carolina Software and Happy New Year!

The WasteWORKS Vision System works with WasteWORKS and WasteWIZARD and combines transaction text with up to 8 photos of your scale lane (driver, license plate, etc.)

Become a WasteWORKS Focus Customer!

Tell us about your operations and you could be featured in the next WasteWORKS Customer Spotlight. We're inviting WasteWORKS customers to submit a short editorial about their site(s). This is your opportunity to tell us, and our hundreds of other customers around North America, why your site is special. Editorials should include information about your facilities (including facts and figures), your communities, special programs and anything else that makes your site unique and interesting. We will review editorials and select one each quarter to be included in our WasteWORKS Customer Spotlight. Please e-mail your entries to info@wasteworks.com and include "WasteWORKS Entry" in your subject line. (Please limit entries to 500-600 words. Carolina Software staff will edit entries and contact you for final approval.)

The New www.WasteWORKS.com

The new WasteWORKS website is now on-line! In addition to a fresh new look, the new website features updated support and forms ordering tools and archived newsletters, just in case you missed one!

puter. By combining ticket text with an image of the driver, the vehicle or both, this new system gives administrators a true snapshot of each transaction.

WasteWALKER V.4

New for 2006 was the latest version of WasteWALKER. WasteWALKER Version 4 features the latest in mobile hardware and software technology, utilizing the new Windows Mobile 5, Symbol MC70 Handheld Computer, a new Bluetooth capable printer, and many new software features for added flexibility. WasteWALKER V.4, an even more fully featured system than its predecessors, is not only a great device for processing transactions at convenience sites, household hazardous wastes facilities, recycling centers and yard waste sites, it is also a great backup for

WasteWALKER allows you to enter multiple line item, count-based, volume, and even weight-based materials into one compact and portable device. At the end of the day WasteWALKER tickets transfer easily into WasteWORKS where they can be closed out and posted.

WasteWORKS scale houses during down time situations. WasteWALKER is capable of handling transactions based on weight, count or cubic yards. Users can even enter the dimensions of a container and

WasteWALKER will calculate the cubic yards for you!

Lane Control in a Box

The new WasteWORKS Lane Control System, which was originally developed for the Fort Bragg Marine Corps base in North Carolina, provides flexible control for almost any combination of scales, traffic lights and gate systems. This new

system works with WasteWORKS and WasteWIZARD and includes a simple wiring interface for connecting existing

Update:

Spotlight on Automation

Carolina Software, Inc., developer of the industry's leading solid waste management software, WasteWORKS, is now leading the way with the latest technology in scale lane automation! WasteWIZARD automation turns your scale lane into an express lane.

Waste WIZARD

Scale lane automation for facilities using the WasteWORKS software package.

Did You Know?

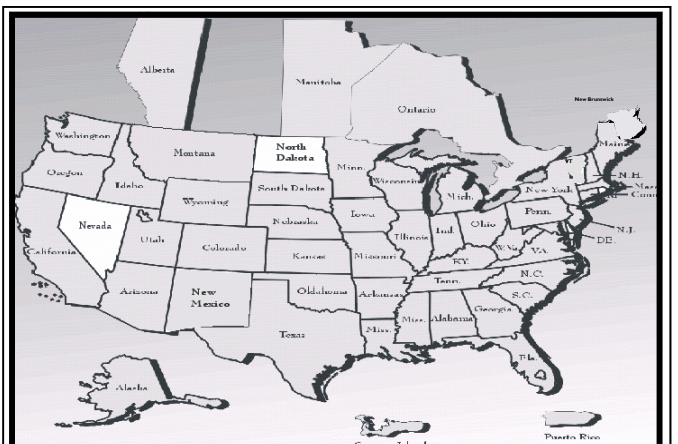

Here are the answers to some common WasteWORKS questions.

Can I sign up for an electronic copy of the WasteWORDS Newsletter?

- Yes, just visit www.wasteworks.com and sign up for an electronic copy of the WasteWORDS newsletter to be delivered directly to your e-mail four times each year.

Can WasteWORKS users purchase custom reports? - Yes! Carolina Software technicians are available to create custom reports and billing. Need additional information on your statement? Would you like to see your aging in monthly categories? Our technicians can create them for you. Please call the Carolina Software sales department for more information! (may require Crystal Reports Pro or third-party viewer).

WasteWORKS States Update:

Since WasteWORKS was first introduced in 1987, the number of installed customers and geographic locations has increased dramatically. Locations in which facilities are using WasteWORKS include the areas shaded in gray.
